GOOD NEWS FOR HOMEMAKERS

By Shirley W. Walton Extension Agent

20 TIPS FOR CONSERVING ENERGY IN USING APPLIANCES:

1. Be sure the door gaskets on your refrigerator and freezer fit tightly. If cold air is escaping, you're wasting energy. Likewise, make sure oven door fits tightly.
2. Don't open refrigerator or freezer doors more than necessary. Avoid raising pot covers and opening the oven door during cooking operation.
3. Don't keep refrigerator cooler than necessary (34-40 degrees F.). Check Temperature with a thermometer.
4. If you have a freezer, keep it full.
5. Use pots and pans the same size as the burners or units.
6. Put your pots and pans on the range before you turn the heat on. Reverse the process when removing pans.
7. Use pans with flat, undented bottoms.
8. Use covered pans for top-of-the-range cooking, if feasible.
9. When water begins to boil, turn unit or burner to "low" or "simmer". Slowly boiling water is as hot as rapidly boiling water.
10. Boil only the amount of water that is needed.
11. For foods requiring long cooking, it's more economical to use the oven than the top of the range.
12. Don't preheat the oven too long before using. Don't preheat at all when roasting large items. Don't preheat broiler pan.
13. When roasting or baking, use the oven to capacity. Cook food for another day. Plan oven meals when possible.
14. Use accurate baking temperatures. If foods aren't browning properly, have range thermostat adjusted.
15. With electric ovens, turn off the heat a few minutes before the end of the baking period and finish baking with retained heat.
16. For electric surface cooking, turn unit off a few minutes before food is done. The stored heat will continue to cook the food.
17. Delay use of appliances which use large amounts of energy such as dishwashers, and ovens, including cleaning cycles, until late evening when power loads are less. Early morning hours and week-ends are other times when power loads are less.
18. Don't over-dry clothes in dryer.
19. Run dishwashers and washing machines with a full load or use water level adjustments if washing less than a full load.
20. Don't use hot water to wash clothes if cool or warm will do.

Note: Our office will have available by the middle of January an excellent publication entitled "Home Heating In An Emergency." Should you like a copy write the Appomattox County Extension Office, P. O. Box 458 or call 352-8244.

Recipe of the Week

OLD-FASHIONED CHESS PIE

1¼ cups sugar ¼ c Margarine
2 or 3 eggs 1 t. vanilla extract
3 tbls. cornmeal 2 tbls. milk
2 tbls. vinegar
Unbaked 9-inch pastry shell.

Cream sugar and margarine; beat in eggs one at a time. Add remaining ingredients; mix well. Pour into unbaked pastry shell. Bake at 325° for 45 to 60 minutes or until pie tests done. Yield: one 9-inch pie.

TOWN COUNCIL APPROVES BUDGET FOR NEW YEAR

Cont'd from page 1

to provide such drawings to scale on the storm drainage, water system and sewer system had been received. Council delayed action on this item of business.

Slagle further advised council that the proposed County Zoning ordinance has been completed and has been typed at the town office and remapped by the Central Virginia Planning Commission.

On a motion made by R. C. Hubbard and seconded by Mrs. C. H. Robertson, the following resolution was passed by council: Whereas, the Town of Appomattox is providing water and sewage service to the Triangle Plaza Shopping Center and other areas of the county located adjacent to the corporate limits of the Town of Appomattox and; Whereas, this water and sewer service has expanded faster than anticipated in these service areas, and; Whereas there is limited capacity to continue to expand these services without working extensive capital improvements to both the water and sewer systems, and Now Therefore be it resolved - that the Town of Appomattox requires that no future outside connections to corporate limits of the Town of Appomattox be made to the existing water and sewer systems without first obtaining permission for same from the Appomattox Town Council.

The Central Virginia Planning Commission is acting as coordinator of the survey of energy cases. Copies of requests for emergency home fuel oil are available in the Town Office.

Slagle brought to the attention of council that since May of $13,965.66 had been spent in capital improvements to the sewer system and that $103,846.37 had been spent in the water system for capital improvements.

A Bureau of Solid Waste representative has commented that Appomattox County has a "model landfill operation." The sanitary system is working well at this time and approximately 70 containers have been stationed.

SCHOOL TO OPERATE ON DAYLIGHT SAVINGS TIME

Cont'd from page 1

the divisor superintendent are making a careful study of all school bus schedules. Adjustments in school bus schedules will be made to provide for students to meet busses as late each morning as possible and allow ample time for busses to arrive at school before 8:45 a.m. (DST).

Walton stated that regardless of the schedule established there are very obvious problems which will be created. "Our desire is to follow the schedule which will result in the least amount of disruption," he continued. "We ask for your continued cooperation and assistance as the school board and school employees work for the safety of the youth of the county schools, as well as for effective educational experiences," he said.
